

## Supercar Pagani Zonda on board the Silver Sturgeon – April 2008

Group 20 Supercars enjoyed an evening event promoting their Supercars on board our flagship the Silver Sturgeon. A £600k rare Zonda Supercar dubbed the 'Most Exclusive Roadster in the World' and one of only twenty five in the world, enjoyed a cruise on the sun deck after being carefully craned onto the top deck from a dock side in East London. Also carefully engineered through the River Room skylight was the Porsche 911 GT3, dubbed the the 'latest race-bred 911 sports coupe'. This was the first time Supercars have been on board the Silver Fleet and the evening was well attended by press, top UK events organisers and the motoring trade.
